Information regarding additional PSC-CUNY Welfare Fund—provided prescription drug coverage and your final cost-sharing amounts

PSC-CUNY Welfare Fund is pleased to offer your primary prescription drug benefit through the Medicare Part D program, effective January 1, 2012. In addition, **PSC-CUNY Welfare Fund is also providing additional coverage to enhance your Part D benefit. The combination of both plans will ensure that your final co-payments remain similar to the current PSC-CUNY Welfare Fund prescription drug plan.**

Under the Medicare Part D program, we are required to provide you with the enclosed Medicare Part D Benefit Summary document, which provides the details of your base Medicare Part D program.

As a result of the PSC-CUNY Welfare Fund—provided additional coverage, the chart below shows your **final** cost-share when you use your prescription drug benefit at a network pharmacy:

Tier Name	Retail Final Cost-Share (31-day supply)	Retail Final Cost-Share (90-day supply)	Medco Pharmacy® Mail Final Cost-Share (90-day supply)
Tier 1: Generic Drugs	20% coinsurance with a \$5 minimum	20% coinsurance with a \$15 minimum	20% coinsurance with a \$10 minimum
Tier 2: Preferred Brand Drugs	20% coinsurance with a \$15 minimum	20% coinsurance with a \$45 minimum	20% coinsurance with a \$30 minimum
Tier 3: Non-Preferred Brand Drugs	20% coinsurance with a \$30 minimum	20% coinsurance with a \$90 minimum	20% coinsurance with a \$60 minimum

This additional coverage will also provide coverage for drugs that are not on the Medicare Part D formulary. The combined coverage will result in a plan that provides benefits similar to your current plan, with the co-payment that you pay across the Medicare Part D coverage stages generally remaining the same.
